

Quiz 3: Answers

(11/6/2019)

Name: Dara Lim

1. All the EL implicit objects are in the form of `Map`.

- (a) true ☒ (b) false

2. For a property of a `JavaBean`, which of the following is always true?

- ☒ (a) The *getter* method of this property is always available.
(b) The *setter* method of this property is always available.
(c) Both the *getter* method and the *setter* method are always available.

3. In a JSP, if you have the following lines,

```
<% int m = 12; %>
```

...

If we want to display the value of `m`, which of the following expressions should we use?

- (a) `${m}` ☒ (b) `<%= m %>`

4. If a `JavaBean` does not have any setter, then it is *immutable*.

- (a) true ☒ (b) false

5. We need to use a list of `JavaBeans` to store the model data in a Java MVC web application. Each `JavaBean` is a `UserBean` object. How to declare and construct this `List` object in a servlet with the `new` operator?

Ans: `List<UserBean> userBean = new ArrayList<UserBean>();`
